

# LUCKY BREAK

## RANCH & TACK

### Ghosts in the Graveyard

**Players:** 4 +

**How to Play:**

1. Choose one player to be the Ghost. All the other players form a circle around him and lie down on their backs. They're now in "the Graveyard."
2. The Ghost counts to 3, then tries to get the other players to move without making any physical contact. He can yell, laugh, tell a joke — anything except touch another player.
3. Anyone who moves, laughs, or makes noise becomes a Ghost too, standing up and trying to get the others to move. The last to move starts a new game as the Ghost.
